EDUCATION

Universidad del Valle
B.Sc. in Computer Systems
Engineering
2020 – 2024

La Salle High School
Cochabamba Bolivia
2012-2019

PROFESSIONAL SUMMARY

Full Stack Software Engineer with experience delivering production-ready software across SaaS, real estate, hospitality, and enterprise platforms. Specialized in React, Next.js, Laravel, and TypeScript, with hands-on experience in backend development, cloud infrastructure, DevOps, system architecture, and deployment automation. Proven track record of taking ownership of entire products, leading technical initiatives, and ensuring the reliability, scalability, and continuity of production systems.

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer

Reborn Developments

Multi-brand software ecosystem includes Rekaliber, Reborn Rentals, GRBG, and Reborn Host. | 2025 – Present

- Served as the sole active software engineer and de facto technical lead during the final six months, owning full-stack development, infrastructure, deployments, and production operations across multiple business platforms.
- Built and maintained production-ready **SaaS applications with AI integrations** using **Next.js, React, TypeScript, Laravel, PHP, Blade, and MySQL** across real estate, hospitality, and enterprise platforms.
- Managed production infrastructure including **Hostinger VPS, Dokploy, Cloudflare, DNS, SSL, SMTP, CI/CD pipelines, and deployment automation.**
- Developed **REST APIs**, authentication, business logic, and third-party integrations including **Odoo ERP, OpenAI, Gemini, Azure AI, Google Maps, and email services.**
- Authored **comprehensive technical documentation and knowledge transfer guides** covering architecture, deployments, infrastructure, and operational procedures to ensure long-term platform continuity.

Full Stack Developer Intern – Team Lead

Grupo GOIT | Mar 2025 – Jun 2025

- Led the development of a full-stack educational platform, delivering both web (**Next.js, NestJS**) and mobile (**React Native, Expo**) applications backed by **PostgreSQL**.
- Integrated Moodle** to automate course management, enrollment, and student progress tracking.
- Mentored developers, conducted code reviews, and ensured code quality, architectural consistency, and on-time delivery.

Software Project Manager Intern

Universidad del Valle (UMA) | 2024

- Managed five software development teams, coordinating project planning, requirements, timelines, and deliverables.
- Trained developers in **React, React Native, Git**, and collaborative development workflows.
- Supervised repository management and code integration, delivering deployment-ready academic software projects.

SKILLS

Frontend: React, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS

Backend: Laravel, PHP, REST APIs, MySQL, PostgreSQL, JWT

DevOps: Hostinger VPS, Dokploy, Cloudflare, Docker, CI/CD, SMTP

Tools: Git, GitHub, Postman, Figma, Firebase, Odoo ERP, Moodle

ACHIEVEMENTS

- Mentored developers in React and React Native, providing technical training and guidance.
- Founded FluenceSoft, delivering custom software solutions for real-world business needs.
- Recognized for outstanding performance as Software Project Manager (SPM) during my internship.
- EF SET English Certificate – C2 Proficient.
- Multiple professional certifications in software development and modern web technologies.

CERTIFICATIONS

- EF SET English Certificate** — C2 Proficient (71/100)
- SmallTalk English Speaking Level Test** — C2 Level
- Cisco Introduction to Cybersecurity**
- Software Development Internship Certificate (2025)**
